

# Inquest—Customizing Reports and MORE

Technosoft will be conducting a class on the day prior to the following 2020 NAFED Conferences:

- Las Vegas - March 4th
- Atlantic City - April 1st
- Chicago - May 6th

The course will focus on: customizations available to the end user; key concepts to how the application works; how to make it work better for your company.

## Who will benefit:

Anyone who uses the Inquest software application for service scheduling, customer tracking, inspection reporting; or wants to get more out of and use Inquest to its fullest.

## Goals of class:

- Customize reports to better meet your needs
- Add a new custom service type
- Customize an existing service
- How the service schedule and work orders drive the work flow
- Open discussion with other companies:
  - Challenges they have faced
  - How these challenges were resolved

---

“Inquest—Customizing Reports and MORE” will run from 9:00am—5pm with a 1 hour on your own lunch break.

The final hour of the class will be an open Q&A on features of Inquest.

Registration form and details available at: <http://technosoftinc.com/class-2020>
