

**SUMMARY OF ENHANCEMENTS**

The following is a partial listing of enhancements and corrections made to Inquest in version 5.3.4 available December 7, 2009.

NOTE: Starting with Inquest 5.3.3. Equipment added with a Windows Mobile handheld can no longer be downloaded to a Palm OS handheld. If you are using both types of handhelds you will need to switch entirely to Windows Mobile units.

<b>1. MOBILE COMPUTING</b>
<b>A. Windows Mobile – Work Order Printing</b> When printing a work order from a Windows handheld; the technician will have the option to include pricing on the form.
<b>B. Windows Mobile – Invoice Calculation</b> Calculating an invoice on the handheld would fail if the customer has unique special pricing and a completed service was not setup in the "Services" price list. This issue has been corrected in 5.3.4.
<b>2. REPORTS</b>
<b>A. Work Orders and Service Records</b> Printing work orders and service records for customer accounts would fail on Windows XP computers running Inquest 5.3.3. This issue has been corrected in 5.3.4.
<b>B. Parts Bar Code List</b> The 'Parts Bar Code List' report has been enhanced to group by the 'Category' and sort the parts list by their description.

Note: All changes listed were made after the previous release v5.3.3 available November 17, 2009.
