
QUICKBOOKS DATA SHARING - REAUTHORIZATION

Updating Inquest to a newer version may require you to reauthorize data sharing with QuickBooks. Please note that the 'Admin' user and password is required to authorize QuickBooks to share data with Inquest.

ACCOUNTING INTERFACE RECONNECT

1. Close Inquest if you have it opened
2. Open QuickBooks and login as the 'Admin' user
3. Open Inquest as usual
4. Inquest will try and make a connection to QuickBooks
5. Switch to QuickBooks. You will see the following dialog box

6. Choose the "Yes, whenever this QuickBooks company file is open" option
7. Click "Continue..."
8. A confirmation message will display, click the 'Done' button
9. The data sharing reauthorization is complete

DATA SHARING WITH QUICKBOOKS

Once data sharing has been setup. Follow this procedure to have an active data sharing connection between QuickBooks and Inquest.

1. Always open and login to QuickBooks first
2. Once QuickBooks is fully open
3. Dismiss any dialog boxes that may periodically display when opening QuickBooks
4. Open Inquest
